UNDERSTANDING DIVISION AS SHARING

SHEET 2 ANSWERS

1) Quadra the operations salamander is sharing out a packet of 28 Salamander drops between 4 of her friends. How many do they each get?

Draw a picture below to help you work it out.

Answer: they get 7 each. We can write this as $\underline{28} \div \underline{4} = \underline{7}$

2) Francis the Fraction Salamander finds 18 gold coins hidden in an underwater chest. He shares them out equally between himself and 2 of cousins. How many do they each get?

Draw a picture below to help you work it out.

Answer: they get 6 each. We can write this as $\underline{18} \div \underline{3} = \underline{6}$
