

Name : _____

Addition - Theme Park

- 1) Cindy Mason visited a theme park with her parents and her brother Calvin. How much did Mr. Mason have to pay for the entry tickets altogether, if they were priced at \$134 for two adults and \$94 for two children?

- 2) Cindy took two frog hopper rides. The first ride had 18 hops and the second one 19. How many hops in all did the two rides have?

- 3) Calvin had to wait 15 minutes to take the Ferris wheel ride. Cindy had to wait 19 minutes to take a water ride. How much time in total did the Mason siblings have to spend waiting before they got onto their respective rides?

- 4) Calvin takes a ride on the double-decker carousel. The upper deck has 6 horses and the lower deck has 12. How many horses in all are on the carousel?

- 5) Cindy took 15 rides at the theme park. Calvin took 17 rides. How many rides did the Mason siblings take altogether?

Name : _____

Answer key
